achalasia, radiographic findings in (*tip*), January, p. 218
acidosis, metabolic, *February, p. 220
adenotonsillectomy, palate should be scrutinized before (*med*), January, p. 210
aging, cardiovascular responses with (*tip*), February, p. 251
agoraphobia, current drug therapy for, *January, p. 129
air travel, medical aspects of, *June, p. 125
alcoholic patients, pancreatic abscess in (*tip*), March, p. 257
aldosteronism, primary, diagnosis of (*tip*), March, p. 268
alkalosis, primary metabolic, *March, p. 193
allergies, study links rheumatoid arthritis and (*med*), February, p. 237
anaerobic bacteria in pediatric infections, *March, p. 201
anaphylactic reaction in man (*tip*), March, p. 240
anesthetics, local, methemoglobinemia and (*tip*), March, p. 234
aneurysm(s)
—dissecting aortic, midsystolic click in (*tip*), June, p. 216
—vs. occlusive disease of the aorta (*tip*), February, p. 281
—polytetrafluoroethylene graft (*tip*), June, p. 225
angina (pectoris)
—onset of, study links site and size of infarct and (*med*), April, p. 173
—pain relief of, psychologic aspects may influence (*med*), March, p. 220
—in patients with normal coronary arteries (*tip*), June, p. 222
—terbutaline-induced (*tip*), January, p. 238
—unstable (*tip*), January, p. 237
antacids, comparative analysis of (*tip*), June, p. 207
antibiotic therapy, leukocytosis after (*tip*), January, p. 230
antibiotics
—prescribing, *June, p. 133
—prophylactic, following abortion (*tip*), June, p. 208
—topical, and minor skin trauma, *January, p. 121
antihypertensive agents, behavioral side effects of, *February, p. 213
antihypertensive drug effective but may raise patient's cholesterol (*news*), February, p. 297
antihypertensive therapy, complications of, *March, p. 155
antihypertensives, temporary cessation of, is tested (*med*), June, p. 199
anxiety and disturbed behavior in the elderly, *April, p. 151
aorta, occlusive disease of, aneurysm vs. (*tip*), February, p. 281
aortic dissection, neurovascular syndromes of, *June, p. 175
aortic insufficiency, arteriolar dilators in (*tip*), May, p. 198
aortoiliac graft, limb blood flow after (*tip*), January, p. 233
appendiceal perforation (*tip*), February, p. 290
arteriolar dilators in aortic insufficiency (*tip*), May, p. 198
arthritis, rheumatoid, study links, and allergies (*med*), February, p. 237
arthropathy, hemophilic, ibuprofen for (*tip*), March, p. 248
ascites, drug therapy of, *January, p. 204
ascorbic acid: an acidifying agent? (*tip*), May, p. 189
aspirin
—effects of, on prostacyclin (*tip*), March, p. 226
—and platelet inhibitory action (*tip*), March, p. 249
asthma, childhood, natural history of (*tip*), April, p. 195
asthma attacks, acute, in children (*tip*), March, p. 255

b

balloon dilatation of iliac stenosis (*tip*), January, p. 242
baroreceptor reflexes, digitalis and (*tip*), May, p. 192
beta blockade, plasma renin activity and (*tip*), January, p. 217
beta-carotene might be useful in cancer therapy (*med*), June, p. 197
beta-thalassemia trait (*tip*), March, p. 231

birth, early, results in more protein for the breast-fed infant (*med*), March, p. 221
bites, human, of the hand, *February, p. 110
bladder aspiration, suprapubic, in infants, *May, p. 115
blood pressure
—high, salt and: an update (*ed*), April, p. 82
—in pregnancy (*ed*), June, p. 99
blood pressure fall during sleep (*tip*), April, p. 190
blood transfusions, fatalities associated with (*tip*), February, p. 282
bone pain, intractable (*tip*), March p. 225
breast cancer
—advanced, progestin therapy in (*tip*), March, p. 264
—early, diagnosis of, *February, p. 161
—hair loss resulting from therapy for, is controllable (*news*), May, p. 219
—tamoxifen in, *June, p. 193
breast-fed infant, early birth results in more protein for (*med*), March, p. 221
bronchitis, chronic, in childhood (*tip*), May, p. 189
bronchospasm
—exercise-induced, in children, *March, p. 185
—timolol-induced (*tip*), June, p. 206
burn patients, kidney size in (*tip*), January, p. 247
burn treatment, early, should be emphasized to the elderly (*med*), February, p. 242
burns, experiments detail cold water's effect on (*med*), January, p. 212
bursitis, tendinitis and, *June, p. 103

C

caffeine withdrawal, consequences of (*tip*), January, p. 226
calcium antagonists and cardiac dysrhythmias, *March, p. 214
calcium intake differs in normotensives and hypertensives (*med*), April, p. 174
cancer
—breast, advanced, progestin therapy in (*tip*), March, p. 264
—breast, early, diagnosis of, *February, p. 161
—breast, hair loss resulting from therapy for, is controllable (*news*), May, p. 219
—breast, tamoxifen in, *June, p. 193
—cervical, screening for (*tip*), May, p. 204
—head and neck, advanced, therapy for (*tip*), February, p. 284
—infections in children with (*tip*), June, p. 206
—lung, survival in, HLA type and (*tip*), January, p. 230
—ovarian, investigator presents results from study on (*news*), January, p. 252
—pancreatic, chemotherapy in (*tip*), April, p. 205
—pancreatic, coffee is linked to (*news*), May, p. 222
—pancreatic, combined chemotherapy for (*tip*), February, p. 252
—parotid, demands a search for obscure metastasis (*med*), February, p. 237
—psychosocial factors in, *February, p. 197
cancer therapy, beta-carotene might be useful in (*med*), June, p. 197
cancer treatment, thyroid: how radical? (*tip*), February, p. 266
carcinoid of the stomach (*tip*), March, p. 256
carcinoma(s)
—esophageal, early (*tip*), March, p. 248
—gastric, new trends in, are noted (*med*), April, p. 173
—lung, are ranked by tumor cell proliferation (*med*), June, p. 198
—small cell, hormones and (*tip*), February, p. 258
cardiac catheterization in children, *June, p. 115
cardiac dysrhythmias, calcium antagonists and, *March, p. 214
cardiac injury (*tip*), March, p. 262
carotid artery, ultrasonic imaging of (*tip*), February, p. 281
carotid fibromuscular dysplasia (*tip*), March, p. 236
cellulitis, bacteriology of (*tip*), February, p. 265
cerebrospinal fluid, gamma-hydroxybutyric acid in (*tip*), April, p. 180
cervical cancer, screening for (*tip*), May, p. 204
cervical spine stenosis, congenital, signs of, are characterized (*med*), March, p. 220
cesarean section, repeat: is it necessary? (*tip*), May, p. 203
cesarean section procedures, NIH panel reviews (*news*), January, p. 251
chemotherapy
—combined, for pancreatic cancer (*tip*), February, p. 252
—in non-Hodgkin's lymphoma (*tip*), January, p. 234
child-restraint law (*tip*), June, p. 227
chlamydia infections in infants (*tip*), February, p. 283
chlorine exposure: a challenge to the physician, *January, p. 135
cholecystectomy and hysterectomy, combined (*tip*), February, p. 267
cigarette, changing (*tip*), June, p. 221
coffee is linked to pancreatic cancer (*news*), May, p. 222
condom catheter, penile necrosis caused by (*tip*), February, p. 276
congestive heart failure, chronic, pirbuterol for (*tip*), April, p. 179
contact lens wear during decompression (*tip*), January, p. 246
contraceptives, new, MD describes (*news*), June, p. 239
contrast media, radiographic, reactions to, *May, p. 149
convulsions following carotid endarterectomy (*tip*), February, p. 268
coronaries, remarkably 'clean,' ninety-year-olds have (*med*), February, p. 241
coronary artery disease, mental stress and (*tip*), February, p. 260
coronary artery obstructions, assessing (*tip*), January, p. 244
coronary bypass surgery is now safer (*news*), May, p. 226

corporal punishment for children (*tip*), March, p. 263
corticosteroids
—temporal fat deposits and (*tip*), March, p. 257
—topical, dwarfism and (*tip*), January, p. 230
cortisol, effects of naloxone on prolactin and (*tip*), January, p. 229
cough, chronic, in children (*tip*), April, p. 200
CPR, duration of life support best predicts survival after (*med*), January, p. 209
Crohn's disease, perianal (*tip*), March, p. 260
cryotherapy, *March, p. 141
cytomegalovirus infection, congenital (*tip*), March, p. 244

d

D & C, hysteroscopy improves diagnostic yield of (*med*), January, p. 212
dangerous patient, *February, p. 145
decompression, contact lens wear during (*tip*), January, p. 246
decongestant sprays, misuse of, addiction possible from (*news*), May, p. 225
dementia, elderly patient with, *January, p. 196
dengue fever, after long absence, reported in southwestern states (*news*), January, p. 258
dental caries
—preventing, *March, p. 167
—vaccine for (*info pl*), March, p. 46
depression, underlying, seems to be common in teens (*med*), March, p. 219
dermatitis, diaper (*tip*), February, p. 283
diabetes insipidus and acute lymphoblastic leukemia (*tip*), January, p. 220
diabetes mellitus
—inheritability of (*info pl*), January, p. 66
—new diagnostic classification of, *February, p. 179
diabetic neuropathy and plasma glucose control (*tip*), June, p. 213
dialysis encephalopathy (*tip*), January, p. 241
diarrhea
—associated with dietetic foods (*tip*), January, p. 232
—intractable, of infancy (*tip*), February, p. 255
dietetic foods, diarrhea associated with (*tip*), January, p. 232
digitalis and baroreceptor reflexes (*tip*), May, p. 192
dimethyl sulfoxide (DMSO)
—current status of, *April, p. 167
—and renal function (*tip*), January, p. 245
distal bypass, iliac dilatation and, restore circulation to legs (*med*), February, p. 241
diverticulitis, surgery for (*info pl*), March, p. 43
drug addiction, physicians and (*tip*), March, p. 226
drug levels, rational use of, *April, p. 122
DTP vaccine, CDC tallies reactions to (*med*), February, p. 242
Dupuytren's contracture, *May, p. 85
dwarfism and topical corticosteroids (*tip*), January, p. 230
dysphagia with Hodgkin's disease (*tip*), March, p. 238

e

echinococcosis, pulmonary, in children (*tip*), January, p. 225
endarterectomy, carotid, convulsions following (*tip*), February, p. 268
endocrine ablation, steroid receptors and (*tip*), April, p. 194
endoscopic papillotomy, *March, p. 111
endoscopy, early, limited value of (*tip*), January, p. 217
endotracheal intubation vs. tracheotomy (*tip*), May, p. 183
epiglottitis, acute (*tip*), April, p. 194
esophageal carcinoma, early (*tip*), March, p. 248
estrogen therapy is evaluated (*news*), February, p. 293
exercise testing, early, after myocardial infarction (*tip*), January, p. 241

f

facial pain, chronic, differential diagnosis of, *May, p. 137
failure to thrive, nonorganic (*tip*), March, p. 259
failure-to-thrive behavior (*tip*), March, p. 236
febrile seizures
—consensus on (*tip*), April, p. 190
—management of (*tip*), June, p. 208
fetal age, technique predicts, accurately in second trimester (*news*), June, p. 234
fetal assessment, nonstress test for (*tip*), May, p. 209
fetal growth standards, improved, pediatrician calls for (*news*), May, p. 220
fever, high, child with: a reminder (*ed*), February, p. 106
fingertip lacerations and amputations, repair of, *January, p. 177
fluoride poisoning, acute (*tip*), January, p. 245
food additives, hyperactivity and (*info pl*), May, p. 42
food poisoning, staphylococcal (*tip*), March, p. 264
foreign bodies, wooden, in the foot (*tip*), February, p. 268

g

gastrectomy, partial, alkaline reflux after (*tip*), February, p. 269
gastric carcinoma, new trends in, are noted (*med*), April, p. 173
gastritis, idiopathic, 1981, *June, p. 167
gastroenteritis, rotavirus, Norwalk agent and (*tip*), May, p. 190
gastroesophageal reflux
—(*tip*), June, p. 228
—pediatric (*tip*), April, p. 179
gastrointestinal bleeding, vasopressin appears ineffective in (*med*), May, p. 178
giardiasis, *February, p. 137
glucose intolerance, sepsis and (*tip*), May, p. 204
goiter, endemic (*info pl*), January, p. 59

gonads, inadequate shielding of, x-ray review documents (*med*), May, p. 178
gonococcal infections, neonatal (*tip*), January, p. 240
gonorrhea, treating, *May, p. 123
gouty attacks, precipitators of (*info pl*), May, p. 41
grass inflorescences, aspirated (*tip*), February, p. 289
Graves' disease, management of, in pregnancy (*tip*), June, p. 216
Group B streptococcus
—*February, p. 117
—a venereal-nosocomial infection (*ed*), February, p. 108
Guillain-Barré syndrome (*tip*), January, p. 234

h

hair loss resulting from therapy for breast cancer is controllable (*news*), May, p. 219
head injury is likely in first rib fracture from blunt trauma (*med*), May, p. 177
head and neck cancer, advanced, therapy for (*tip*), February, p. 284
headaches, overview of, among children (*news*), February, p. 291
hearing loss, serologic studies support role of viruses in (*med*), January, p. 210
heart failure, degree of, attention to, refines lidocaine dosage (*med*), June, p. 199
heart lesions, congenital, age at the time of repair of (*tip*), March, p. 231
heat wave-related mortality (*tip*), January, p. 228
hematuria, practical approach to, in children, *January, p. 159
hemorrhage
—acute variceal, management of (*tip*), April, p. 180
—esophageal variceal, management of (*tip*), February, p. 276
—neonatal periventricular-intraventricular (*tip*), April, p. 206
—pulmonary, and SLE (*tip*), May, p. 192
heparin, cutaneous necrosis secondary to (*tip*), January, p. 226
heparin therapy for deep venous thrombosis (*tip*), April, p. 196
hepatitis, chronic active, prednisolone and (*tip*), June, p. 227
hepatitis B antigenemia, abdominal vasculitis with (*tip*), March, p. 240
hepatitis B virus, fecal contamination with (*info pl*), June, p. 28
hepatobiliary scanning (*tip*), January, p. 219
hepatomegaly, cocktails, and normal lab tests (*info pl*), March p. 43
hepatotoxicity, acetaminophen (*tip*), February, p. 262
hernia(s)
—hiatus (*tip*), January, p. 238
—unilateral inguinal, in children (*tip*), June, p. 209
herpes infection, neonatal (*tip*), March, p. 256
herpes simplex infection
—neonatal, therapy of (*tip*), March, p. 248
—perinatal (*tip*), January, p. 228
hiatus hernia (*tip*), January, p. 238
histiocytosis X: diagnosis by electron microscopy, *June, p. 139
HLA type and survival in lung cancer (*tip*), January, p. 230
Hodgkin's disease, dysphagia with (*tip*), March, p. 238
hyperactivity
—diagnosis of (*tip*), April, p. 179
—and food additives (*info pl*), May, p. 42
hyperbaric oxygen therapy, *January, p. 169
hypercalcemic patient, evaluation of, *April, p. 105
hyperkalemia, indomethacin-induced (*tip*), February, p. 258
hyperlipidemia, overview on approach to (*news*), May, p. 219
hyperparathyroidism, primary (*tip*), March, p. 225
hyperprolactinemia
—*March, p. 119
—and bone density (*tip*), April, p. 208
—management of (*news*), June, p. 233
hypertension
—portal, rectal bleeding and (*tip*), February, p. 255
—postresuscitative (*tip*), April, p. 202
hypertensive teens, mildly, left ventricle is enlarged in (*med*), March, p. 220
hypertensives, normotensives and, calcium intake differs in (*med*), April, p. 174
hypertrophic scar study, initial report from, is in (*news*), March, p. 271
hypnosis, clinical, suggestion therapy and, *June, p. 145
hypocalcemia, degree of, clinical signs and (*info pl*), March, p. 43
hyponatremia, mineral deficits in, are surveyed (*med*), June, p. 198
hypotension, acute myocardial infarction with (*tip*), March, p. 242
hypothyroidism, psychiatric presentations of, *May, p. 129
hypoxemia, positional (*tip*), June, p. 207
hysterectomy, cholecystectomy and, combined (*tip*), February, p. 267
hysterical conversion reaction in children (*tip*), May, p. 209
hysteroscopy improves diagnostic yield of D & C (*med*), January, p. 212
